**Some terms have specific definitions**

When we use the following term in this Endorsement, we mean the definition we give here.

Fully vaccinated means:

- having had a COVID-19 vaccine that has been approved by the New Zealand Government health authority
- having followed the New Zealand Government health authority recommendations relating to dosage and any booster vaccine requirements
- having completed the time period between the last vaccination and when the New Zealand Government health authority considers a person to be fully vaccinated

If you or the relevant person can't be vaccinated for medical reasons, this is not fully vaccinated and cover will not apply.

Being below the age of eligibility to receive a vaccination means cover will apply, subject to all the terms and conditions.

For the purposes of the conditions of cover in the policy, diagnosed with COVID-19 is an unexpected event.
