If your flights are delayed or cancelled

Whether you are still in New Zealand or overseas, contact your service providers first i.e. airlines and accommodation, as they may provide refunds or alternative flight and accommodation options.

We deal with these sorts of problems all the time, so before paying for any extra costs, get in contact with us, we'll tell you what your policy covers and help you find the best solution.

Remember to keep all receipts for any additional expenses due to the delay – you'll need them to make a claim.

If your stuff is stolen or broken

Report any theft to the local authorities and make sure you get a police report.

Before you replace any of your gear [email us](#) to find out how we can help and what your policy covers.

To make a claim you will need the original receipts for whatever was stolen and an incident report from the police or relevant authority.

If you need a doctor or hospital

If you visit the doctor you should pay upfront then make a claim when you get home. You will need to send us a doctor's note and receipt.

If you need hospital treatment, call us so that we can:

- Tell you where to find the nearest qualified medical practitioner
- Co-ordinate emergency medical evacuation
- Keep your immediate family advised of your situation
- Provide payment guarantees to hospitals or emergency clinics
